

MANIFESTO TO COMMEMORATE FUKUSHIMA DISASTER AND TO DEMAND THE END OF USING NUCLEAR POWER

We, the masses of the world, are totally opposed to the use of nuclear power, either for energy or for arms. We accept the following slogans and call upon all Governments all over the world to end the use of nuclear power.

- Shut down all nuclear power stations and plants!
- The corporate owners of nuclear power plants must bear the costs of shutdown and clean up operations!
- Application of the highest standards for storing the remaining radiating waste.
- We demand compensation and appropriate medical support from the respective states and from corporate operators or owners of nuclear power plants for all victims of illnesses arising from exposure to nuclear power plant radiation and toxic wastes!
- Save the environment from the greed for profit of the monopolies!
- Pursue and expand research, promotion and propagation of environment-friendly power and energy sources!
- Ban and destroy all nuclear, biological and chemical weapons!
- Strengthen the international front of active resistance for the protection of the natural environment!
