

Resolution of the 2nd ICOR World Conference

Dockworkers Exchange of Experiences

The 2nd World Conference of the ICOR supports the **5th Exchange of Experiences of the Dockworkers** on **25th and 26th October 2014** in Hamburg/Germany. The meetings of the dockworkers so far took place with dockworkers from the Netherlands, from Germany and Spain. Dockworkers play a key role in the closely intertwined system of imperialist worldwide production. Again and again there are strikes and struggles in the quays – around the globe. However, these struggles are only little connected and coordinated yet, and this connection is still often under reformist control.

The 2nd World Conference of the ICOR supports this meeting of the dockworkers based on the principles which have been agreed upon and remain valid. It makes use of the respective capacities of the member organizations for the participation of dockworkers from all continents.
